## OPTIMIZATION STEPS

## PLANNING YOUR BLOG

design is insanely important; custom design shows that you're established, even when you're not.

Poor design, or worse-template design-makes you look transient.

- Own your domain
- Choose or design a complementary look

## FINAL CHECKLIST

## WRITING BLOG POSTS

titles are insanely important: SEO, social media and readership

- Anatomy of a great post
  - Compelling, keyword-rich title
  - Focus
  - Link to your resources
  - Tag & categorize appropriately

## TAG & CATEGORIZE

The screenshot shows a 'Tags' section with an 'Add new tag' input field and an 'Add' button. Below it, it says 'Separate tags with commas'. Underneath, 'Tags used on this post:' lists 'Exhibitors', 'flyte', 'flyte new media', 'ftw09', and 'Sponsors'. A link 'Choose from the most popular tags' is also visible. The 'Categories' section has two tabs: 'All Categories' and 'Most Used'. Under 'Most Used', there are checkboxes for 'FTW' (checked), 'Blog', 'featured', 'headline', and 'Uncategorized'. A '+ Add New Category' link is at the bottom.
